

K-LOVE 91.1 F.M. offers positive, uplifting programing that promotes high character, good values, & right conduct - traits that are almost entirely absent in the bulk of traditional programing offered on the radio today. It encourages "goodness" in the individual & therefore, in the community at large. It keeps us in touch with what is happening in the Christian community & on the Christian music scene - we would be hard pressed to find out this information without it. You can trust it to not have(or promote) vile conversation or vile words/thoughts in the music. Please keep it on as a vote for light in an often dark world.
